

The easier, faster, better way to clean commercial carpet

When customers operate in environments that demand durability. They need equipment that will continue to perform through the rigors of continuous daily use. When they depend on their equipment to last years rather than months, they choose LittleMoe.

LittleMoe is the centerpiece of the ultimate cleaning system

Start with LittleMoe and, when the time is right, you can increase your productivity by adding the auto-sprayer or the Moe-Cart. LittleMoe is your starting point to the most productive and effective commercial carpet cleaning system ever invented.

LittleMoe's robust design

LittleMoe is made in the USA using superior components like a 1/2 hp continuous duty motor, stainless steel bearings, drive components that are 100% steel; no plastic or nylon gears that would compromise durability. LittleMoe's aircraft-grade aluminum handle is nearly indestructible.

LittleMoe out cleans the rest

LittleMoe's counter-rotating brushes allow it to glide effortlessly while collecting debris in its integrated dirt tray. LittleMoe creates professional floor cleaning results that even a novice user can achieve.
